*POTH minimum IEEP and EEP need to be mot to qualify			

Contact Program

*BOTH minimum IEER and EER need to be met to qualify

The AC equipment must include advanced compressor capacity control (either a variable speed compressor, tandem compressor on a single refrigeration circuit, or multiple-step compressors).

The AC equipment must include a multi-speed (three steps or greater) indoor fan.

The AC equipment must include a gas-furnace heating section (no requirements on thermal efficiency).

Measures Covered by above Tiers:

Multi-Capacity Unitary Air-Cooled Commercial Air Conditioners 65-134 k Btu/h 2024

Multi-Capacity Unitary Air-Cooled Commercial Air Conditioners 135-239 k Btu/h 2024

Commercial Heat Pump Air Conditioner, Fuel Substitution Under 65k Btu/h

Please note: Any incentive amounts or product types included in this and other supporting documents are intended as references only and are not meant to replace the PPC. The PPC will always have the most current incentive amount and qualifying products. Incentive levels can and will change throughout the life of the program based upon market trends, program performance, or utility needs and priorities. Please contact the program if you are uncertain of a product's eligibility or incentive level. You can contact the program by reaching out to your Account Manager, by emailing info@comfortablyca.com, or by calling 855-700-4651.
